

Lidarende

(Dry Tooling in Trondheim area)

Finding the climb

The place is located 20km South-East of Trondheim close to the lake Jonsvanet. From Trondheim, drive south in the direction of Klaebu, turn left to Bratsberg. The crag is situated 3.5 km away from Bratsberg just before reaching the lake Jonsvanet on the right side of the road. You can see the top of the crag through the trees.

History

The place was discovered in November 2005. The routes have been bolted by A. Garioud and NTNUI Tindegrupper provided the bolts. There are two bolted routes for dry tooling. It is possible to climb some short icefalls on the right of the main crag.

Guide

1 Marmotta M8 A. Garioud

This route is situated on the left of the crag.

2 Catching the void M8+ A. Garioud

Short route with a powerful movement at the end. The route starts 5 meters on the right of the previous one.
